About Us

Established in 1840, The Mile End Hotel located 5 minutes from the city has been brought back to its original red brick and bluestone exterior with a cheeky blend of modern original and graffiti art governing the interior of the hotel.

Drawing on its rich heritage and retaining its raw beauty, the original timber bar has been resurrected and dominates the main interior of the Mile End Hotel. The original stain-glass windows, floor boards and open fire places continue to hold their place at this iconic hotel.
